

Day 3 journal entry

[Sashank Kondraju]

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

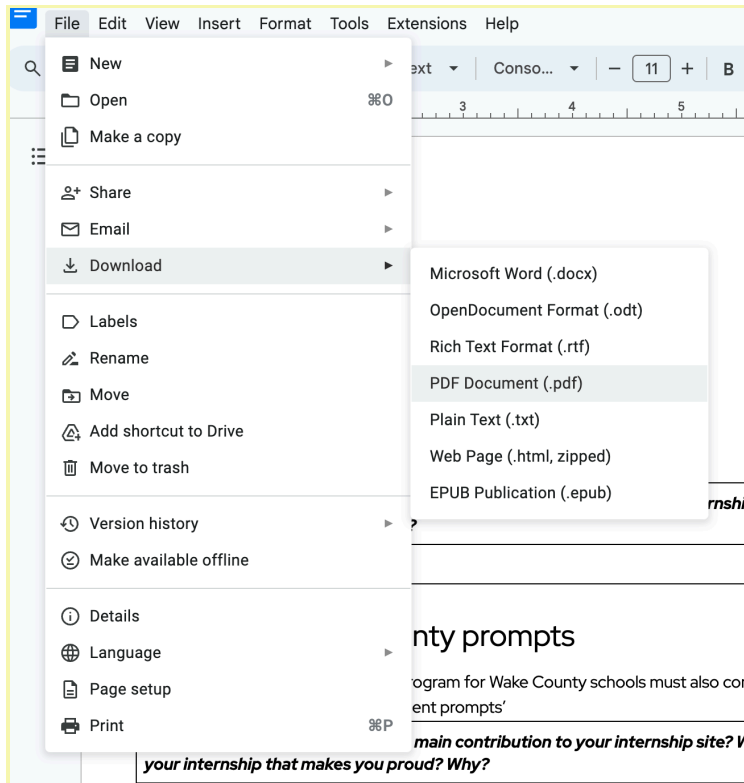

My classroom experiences helped me prepare for the internship a lot because I went to a tech school. I was very fortunate to learn many of these in my school, therefore helping me. One thing I wished I learned before prior to the internship is that I should have learned a bunch of presentation skills when I get to the internship because I met a lot of people.

Prompt option 2: *What is one new skill or piece of knowledge you've gained this week? How do you see yourself applying this in the future?*

Talking to employees one on one without fear, when first got here I was scared to talk to the people here but day 2 I was talking to the employees here for example asking them where is floor 9 or etc. from next time onwards like the next internship I will talk to people on the first day instead of being scared.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 3 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#).
Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
